

TACKLE ANY WORKLOAD AT ANY SCALE

WITH AMD EPYC™ CPU BASED THINKAGILE HX SOLUTIONS

NUTANIX™

ThinkAgile HX3375 Appliances and HX3376 Certified Nodes: Best-in-class hyperconverged system with Nutanix's industry-leading software preloaded on Lenovo platforms. Dramatically simplifies data center management, frees up your IT staff, and accelerates your deployment - ultimately reducing your total ownership cost

The ThinkAgile HX3375 appliance and HX3376 certified node, featuring the latest AMD EPYC processors, is available in a rack-dense 1U form-factor. It is packed with high memory and core density, making it perfect for virtual desktop infrastructure (VDI), business applications, data analytics, private cloud, test and development and general virtualization workloads

- Factory-integrated, pre-configured ready-to-go appliances built on proven and reliable Lenovo ThinkSystem servers
- Lenovo ThinkAgile Advantage Single Point of Support
- Lenovo deployment services to get customers up and running quickly

AVAILABLE AS AN APPLIANCE OR A CERTIFIED NODE

	ThinkAgile HX3375 Appliance	ThinkAgile HX3376 Certified Node
Designed for	Compute-heavy workloads, server virtualization, private/hybrid clouds, data analytics, app/dev/test, enterprise applications, light databases, and remote office and branch office workloads	
Processor	1x or 2x AMD EPYC™ 7002 / 7003 Series Processors	
Memory	64GB - 4TB DDR4, 3200MHz	
GPU	0-2x single wide	
Drive Bays	Up to 12x 2.5-inch drives Up to 4x NVMe drives (requires 2 CPUs)	
Supported Hypervisors	Nutanix Acropolis Hypervisor (preloaded) VMware ESXi (optional preload) with support for SEV-ES security
