

Keep business running with a mobile workforce

Secure corporate data while providing remote access to employees with Lenovo VDI solutions.

Lenovo has extensive experience in developing client virtualization solutions for diverse environments.

In fact, we are currently working to keep thousands of collaborators working remotely around the world.

Today's workforce wants to work safely from any device, in any location.

End-user computing solutions reduce costs and complexity with desktop and user management.

IMPROVE OVERALL SECURITY AND COMPLIANCE

Provide access to company data without natively storing on the client devices.

CENTRALIZED MANAGEMENT

Install new applications, manage updates and add/remove users from a single dashboard.

ENABLE A MOBILE WORKFORCE

Provide users access to their applications and data anywhere, any time, and from any device.

VDI Quick Packs

New Lenovo 100 user VDI Quick Packs provide everything you need to support secure remote work for your employees.
